

## CS-PFR-18-3 ANSS Offshore Industrial Services – Multiskilled Services

### Summary

In 2018, Augean North Sea Services provided a multiskilled service to complete Drilling Waste Management (DWM) and an End of Contract clean-up aboard the Ensco 101.

Augean already had the drilling and waste management equipment on the rig and supplied additional clean-up equipment as part of the multiskilling and additional services approach that we offer to our customers.

### Workscopes Completed:

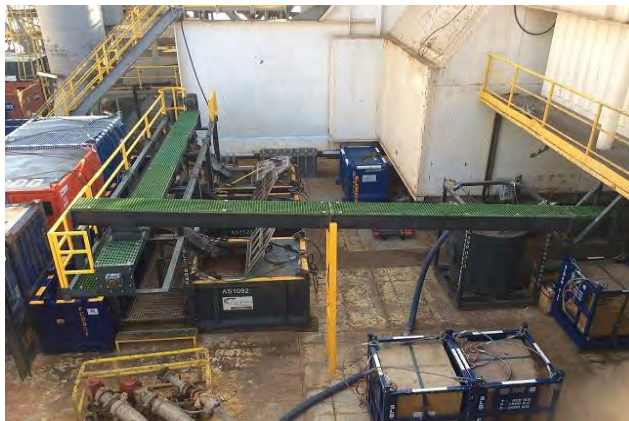

- **Drilling Waste Management**
- **Industrial Services Cleaning**
  - Port and Starboard Containment Tank
  - Base Oil Tank
  - Rig Floor Drip Pans and Boundary Drains
  - Flowline & Skimmer Tank Trough
  - Cantilever Drains
  - Shakers: Header Boxes, Skimmer Tanks, Flow Path, Pods, De-gasser
  - Lower Shakers Sump
  - Deck Flow Line
  - Trip Tanks
  - Pit Room Flow Lines
  - Miscellaneous Residue-Filled Pits

### Key Customer Benefits

ANSS multiskilled and proactive crew covered DWM operations, and a full End of Contract rig clean-up whilst ensuring full compliance with legislation and procedural adherence for all workscopes.

The customer benefited from the unique ANSS one-stop-shop approach with reduced POB on the rig and a comprehensive delivery of the desired tasks.

The Ensco Rig Manager expressed his satisfaction with the quality and professionalism shown by ANSS and its operatives during the completion of these works.

ANSS DWM Skips and Auger arranged aboard the Ensco 101
